Thanks Audrey.

Yes Urban Forestry must have worked last weekend because I saw that the stumps were cleaned-up yesterday. It looks great! Wow, what a difference!! It looks great.

John & I will meet on site tomorrow at 3 PM to stake out the areas we think that require a slough curb. I will also take a linear measurement. Anytime after tomorrow anyone should be able to inspect these stakes.

We do want both sides of the street to match. Therefore no board installation would be appropriate.

Does this work? Thank you.

Hi Don,

I will be away from the office beginning this Friday (3/13) and is scheduled to return on (3/23). If it is alright with you and John, we can defer the field meeting until after my return.

However, if we are to only proceed with a cost estimate for the curb wall to match the improvements on the West side of the street, and will no longer explore the erosion control board option, perhaps a field meeting may not be necessary. Dennis and I can make a site visit to verify the length and provide a cost estimate accordingly. Either option is fine with us. Please advise.

Also, I was informed that the Urban Forestry Division crew have completed grinding additional stumps per our previous discussion.

Thank you,

Audrey

Hi John,
Thank you for your response.

Don, should we still hold the meeting at this date and time?

Thank you,

Audrey

Audrey,

I have a doctors appointment at that time and will not be able to attend.
